

Santa Clara Valley Section Corporate Liaison Program (CLP)

Oct. 8, 2016

Joseph Wei

Chair, Santa Clara Valley Section

joseph.wei@ieee.org

Outstanding Large Section Award
Santa Clara Valley Section
2016

Outline

- **What we are doing and why**
- **What we did**
- **How we did it**
- **What we will do**
- **What you can do**

Santa Clara Valley Section Overview

- ▶ ~13,000+ members
- ▶ 32 Chapters
- ▶ 4 Affinity Groups (Consultants Network, Life Members, WIE, Young Professionals)
- ▶ 4 Committees (K-12, SIGHT, Tech History, TOPS)
- ▶ 10 Student Units in 4 Universities (San Jose State U., Santa Clara U., Stanford U., UC Santa Cruz)

Chapters

Antennas & Propagation	Circuits & Systems
Communications	Components Packaging & Manufacturing Technology
Computational Intelligence	Computer
<i>Consultants' Network</i>	Consumer Electronics
Control Systems	Education
Electromagnetic Compatibility	Electron Devices
Engineering In Medicine & Biology	Information Theory Group
Instrumentation & Measurement	Magnetics
MEMS & Sensors Chapter	Microwave Theory & Techniques
Nanotechnology	Photonics
PhotoVoltaics	Power Electronics
Power & Energy & Industry Applications	Product Safety Engineering
Reliability	Robotics & Automation
Signal Processing	Solid State Circuits
<i>Life Members</i>	Technology Management
Vehicular Technology	<i>Women in Engineering</i>

What we are doing and why

- CLP is a result of SCV Section's Corporate Relationship Initiative
- Goal is to have a formalized way to build relationships with our corporate citizens
 - vs. ad-hoc or nothing at all
 - The intent is a **Long Term** effort!
 - To establish win-win partnership
- One mission is to solve difficulty of find free meeting venues from local companies
- We recognized this as a wider issue and an ongoing need. e.g. \$50k donation from Marvell to Region 6

What we did

- Organized a team with SCV volunteers
- 23 Liaisons (& contacts) found!
- 14 companies attended our first ever Liaison lunch event in November!
 - We presented the Liaison Program
 - We presented our Section & Chapters
 - Opportunity: GHTC & SIGHT
 - Opportunity: Student Conference (~April)
 - Opportunity: TMC involvement
 - Q&A
- Liaisons wanted quarterly events!
- Event info: <http://bit.ly/IEEE-CLP-11-21-13>
(Case Sensitive)

How to find the CLP Liaison

▶ Liaison Criteria:

- senior level individual within the corporation
- Committed to attend quarterly meeting & communicate with his/her company
- Has a good understanding of IEEE's programs and its company's Corporate's Social Responsibilities (CSR) and Engineering initiatives

▶ How to find CLP

- Personal network
- Reach out to the CTO office

What we did (cont.)

Companies with Liaisons (or contacts):

Attended 11/21/13	
1	Altera
2	AMD
3	Cisco
4	Corning
5	Google
6	HP
7	Maxim Integrated
8	NVIDIA
9	Oracle
10	Renesas
11	Samsung
12	Silicon Image
13	Underwriter Labs
14	Xilinx

Could not attend	
1	Cadence
2	EMC
3	Imagination Tech
4	Intel
5	NASA Ames
6	SanDisk
7	Seagate
8	Synopsys
9	Texas Instruments

What we did (cont.)

Time	Min		Who	Slides
12:00	15	Arrive, get food		
12:15	15	Seated, eating		
12:30	10	Welcome, CLP Mission, introductions	Ed Aoki	5
	9	IEEE, Section, More about CLP, Liaisons; • Feedback	John Swan	9
	10	eGRID, Chapters, hot Chapter events - regular tech meetings and special seminars, etc.;; • Feedback	Paul Wesling	11
	7	Opportunity 1: Student Congress • quick feedback	Mostafa Mortezaie	2
	7	Opportunity 2: GHTC & SIGHT • quick feedback	Joseph Wei, for Daniel Lottis	3
	7	Opportunity 3: Technical Management Council • quick feedback	John Delaney	3
13:20	5	• 3-opportunity feedback	John Swan	
13:25	5	General discussion	John Swan	
13:30		Depart		

Also attended for IEEE: Sachin Desai, Ram Sivaraman

Presentations and handout posted at <http://bit.ly/IEEE-CLP-11-21-13>

(Case Sensitive)

Region 6 Central Area Meeting Oct 8, 2016

How we did it

- Started planning Jan. 2013
- Presented concept and approach to SCV Section ExCom
- Started company and contact list
- May: An “Action Committee” was formed
- Utilized **Google Drive** for common committee access to the ‘Golden’ liaison status spreadsheet list

How we did it (cont.)

- Worked to use the company contacts to identify liaisons
- Late July: Started brief but weekly conf calls
- Early October: Ended weekly conf calls
- Continued to contact companies and build Liaison (& contact list) throughout.

How we did it (cont.)

- Event was selected for late November
 - To give us the year to find liaisons
- Committee iterated on possible agenda options
- Goal of meeting was met:
 - A variety of brief informational presentations
 - Ample time for liaison feedback & discussion
 - Respected attendees time

How we did it (cont.)

- Planned and prepared well for the liaison event on Nov. 21.
 - 90 min total minus 30 min. for lunch
 - Michael's on Shoreline, Mt. View
- Prepared badges
- IEEE Committee sat among attendees
- All event info was posted:
 - <http://bit.ly/IEEE-CLP-11-21-13> (Case Sensitive)

Topics presented

	11/21		8/20		
Local IEEE events	Blue	Blue	Blue	Blue	
Student Conference	Blue	Blue	Blue		
GHTC & SIGHT	Blue	Blue	Green		Intel
TMC	Blue				
WIE		Blue	Green	Blue	Altera
SPS		Blue		Green	AMD
Young Professionals			Green		Maxim
Techmanity				Green	Samsung SSI
Training - CS				Blue	
Liaison Discussion		Green	Green	Green

Region 6 Central Area Meeting Oct 8, 2016

IEEE

Other

Typical Agenda (from 8/20/14)

12:00 PM	Arrive, get food		
12:30 PM	Welcome	Tom Coughlin	IEEE, Region 6 Dir. Elect
	Agenda overview, new introductions	John Swan	IEEE
	Hot Chapter, Section & Region events	Joseph Wei & Tom Coughlin	IEEE
	SPS Chapter Restart Signal Processing Society	Radha Giduthuri	AMD
	WIE Update Women In Engineering	Suzette Pangrle	IEEE
	GHTC / SIGHT Update – Global Humanitarian Tech. Conf.	Catherine Nelson	Intel
	New Opportunity: Techmanity	Daniel (Seung) Yoo	Samsung - SSI
1:07 PM	Training: Bringing global resources to you locally – discussion • Some things we already have • What are your needs	Matt Peters	IEEE Computer Society
1:22 PM	Liaison Role Discussion	Tom Coughlin John Swan	All
1:30 PM	Dismissed		

What we will do

- We will continue with quarterly lunch events
- We will expand the Liaison list to include:
 - Texas Instruments
 - Microsoft
 - Marvell
 - Micron
 - Agilent
 - TSMC
 - Citrix
 - Juniper Networks
 - Qualcomm
 - Broadcom
 - HGST (West. Dig.)
 - ARM
 - Brocade

Add Universities

- Universities are included in Corporate Relations Initiative!
 - They were on our CLP list from the start
- Decided to hold off until the program is established with companies
 - Focus our efforts for success
 - Learn by doing
 - Interests expected to be different
- **Update:** SCV website porting to Wordpress by SJSU students

Most Recent List of CLP companies

- ▶ Altera
- ▶ AMD
- ▶ Apple
- ▶ ARM
- ▶ Cadence
- ▶ Cisco
- ▶ Corning
- ▶ EMC
- ▶ Google
- ▶ HP
- ▶ HGST
- ▶ Imgtek
- ▶ Intel
- ▶ Juniper
- ▶ Keysight
- ▶ LG
- ▶ Maxim
- ▶ Microsoft
- ▶ NASA
- ▶ NetApp
- ▶ NVIDIA
- ▶ Oracle
- ▶ Renesas
- ▶ Samsung
- ▶ SanDisk
- ▶ Seagate
- ▶ Silicon Image
- ▶ SK
- ▶ Synopsys
- ▶ TI
- ▶ UL
- ▶ Xilinx

Recent Results

- ▶ Additional corporate venues were offered to IEEE SCV Chapters
- ▶ Corporate sponsors were connected with WIE ILC and GHTC
- ▶ Secured AMD CEO & other corporate executives as speakers at WIE ILC 2015 & 2016
- ▶ Connected WIE related programs amongst several corporations
- ▶ E-Grid has been included in HP's internal employee's communication

What you can do

- Identify some known collaboration opportunities with local tech companies (e.g. conference/ workshop, recruiting, humanitarian projects, etc.)
- Request for Section funding support (if needed) for holding quarterly meetings with Liaisons
- Identify someone at a significant management level at your chapter meeting host company to be your Corporate Liaison?
- Start the first meeting once you have a list of 6 ~ 10 corporate liaison
- Contacts for SCV Section CLP, Ram Sivaraman (ramsivaraman@ieee.org), and, Joseph Wei (joseph.wei@ieee.org)
