

EMBS (Engineering in Medicine) Employment Page

EMBS Chapter founder has determined that a webpage on Employment will benefit IEEE members, and employers alike as we adapt to this unprecedented time and deal with extraordinary challenges and opportunities. EMBS chapter officers have compiled a list of hiring companies in the EMBS field in the Metro area that has already been sent to the Metro EMBS chapter members. This is will help employers fill their vacancies with the most qualified professionals in the industry. Job seekers as well as employers may also go to <http://www.ieee.org/jobs> for companies that have posted their openings and IEEE members that have posted their resumes at the IEEE website. Wesley Surento, EMBS Employment Chair (Wesley Surento wes.surento@gmail.com) will send you the list of hiring employers upon request. He will revise it as he sees necessary.
