

Region 4 & 6 Learning Lab for Chapter Recording and Distribution

- San Diego, CA
- 25-Jan-2015
- John Walz, Director 2015-16, IEEE Board

IEEE
SECTIONS
CONGRESS
/// 2014

Outline

1. Introductions
2. Purpose, Goal - Coughlin
3. Benefits, Value - Walz
4. Big Picture: Chapter Technical Meetings, ?
5. Big Picture: Technology, Fallenstein
6. How connect & record audio, Dennison
7. How make video recordings, Wei
8. Lab experiences
9. Optional Post-editing, Luo?
10. Q&A → Commitment

1. Introductions

- Train-the-Trainer
 - Ron Dennison
 - Mike Fallenstein
 - Xun Luo
 - Joseph Wei
- Champions
 - Tom Coughlin
 - Bob Parro
 - John Walz
- Section Officers
 - “trainers”
- Regional Officers
- IEEE staff
 - Ray Kahn
 - Pradeep Pamula
 - Ted Rozolis
 - Steve Woods

2. Purpose, Goal

Goal

- ▶ Demonstrate an opportunity to create a new class of Intellectual Property (IP) that benefits members.
- ▶ Shows methods for capturing IEEE local Chapter technical meeting presentations and
- ▶ Provides a way for these recorded presentations to be stored and accessed by IEEE members
- ▶ Recordings will be a video of the presentation combined with the voice of the presenter.
- ▶ IP will provide membership value, increase MGA/TAB technical assets, and attract funding for improved Chapter programs.

Current Barriers

- ▶ Some Sections / Chapter geography limit high attendance at Technical Meetings
- ▶ Members who miss the Technical meeting, never have another viewing opportunity
- ▶ Technical meeting slides are mostly not archived on Sections / Chapter websites
- ▶ Call for Lecturers do not offer ongoing publicity / visibility of their talk
- ▶ Sponsoring Societies focus is on peer review articles for Xplore, and not on Technical Meeting recording & archive

Motion

- IEEE Computer Society MGA supports for conducting Chapter Technical Meeting Recording and Archive pilots in Region 6, with technical advice from staff
 - John Walz, Division Director-elect
 - Tom Coughlin, Region Director-elect
 - IEEE Computer Society MGA ExCom
 - 5-Feb-2014

IEEE NEW INITIATIVE: SEED GRANT PROPOSAL

Proposed New Initiative	
Initiative Name	Chapter Technical Meeting Recording & Distribution
Initiative Number	<i>To be assigned upon submission</i>
Date Submitted	8-June-2014
Initiative Leader Contact	Tom Coughlin, Region 6 Director Elect
Alternate Contacts	John Walz, Division 8 Director-Elect
Contacts E-Mail Addresses	tom@tomcoughlin.com , j.walz@computer.org
Phone/Extension	408-202-5098, 630-961-3222
Organizational Unit Sponsor(s)	MGA Region 6 and Computer Society

1. **Abstract** (not to exceed 100 words)

Provide a description of the proposed initiative to be funded by a one year seed grant.

An Opportunity to Create A New Class of IP that Benefits Members: Capturing IEEE local section chapter technical meeting presentations and providing a way for these recorded presentations to be stored and accessed by IEEE Members. These recordings will be a video of the presentation combined with the voice of the presenter. This IP will provide membership value, increase MGA/TAB technical assets, and attract funding for improved Chapter program

Learning Lab Purpose - Tool Demo as part of a process

- ▶ Demo a capability
 - How to use it
 - Help audience understand how easy it is to use
 - How volunteers can incorporate in a meeting when they return to their units
- ▶ Engage the audience
 - Ask if they used the product and/or process
 - Identify issues users may have experienced

3. Benefits, Value

Technical meetings provide value

- ▶ Technical meeting is an important product and service to both Section, Chapter, and Society members
 - Provide membership value in terms of education and networking
 - Attracts new and retains members
 - Attractive to Industry Professionals
- ▶ Show the vitality of the Section/Chapter leadership
- ▶ Section & Chapter leaders are motivated to select the best fit lecturer for their local membership
- ▶ Builds IEEE Brand locally
- ▶ Industry Practitioners especially values Chapter Technical Meetings
- ▶ Many Lecturers first public experience is in front of their Section or Chapter

Technical Meetings could be a new IEEE Intellectual Property

- ▶ All IP has an segmented audience with a variety of price points

YouTube

WILEY

Stanford | ONLINE

Value for stakeholders

- ▶ Local Chapter, Section, and Region members
 - miss a technical meeting
- ▶ Society's related technical communities
 - Global access
 - IP offering: abstract, speaker bio, pdf slides, and Camtasia video file
- ▶ IEEE members involved in continuing education
 - Membership value
 - searchable metadata
- ▶ Non-IEEE members
 - consumers of IEEE store
 - realize the advantages of joining the associated Society and/or IEEE

Global access from Section/Chapter & sponsoring Society websites

- ▶ Chapters and their Societies could build up Technical Meeting IP along with searchable metadata
- ▶ IP offering: abstract, pdf slides, speaker bio, and Camtasia video stream and downloadable file
- ▶ Membership value

4. Big Picture: Chapter Technical Meetings

Technical Meeting Time Line

1. Section / Chapter Program select local interesting topic

2. Call for Lecturers on this topic
3. Lecturer submission
 - Author Name, photo, bio, title, keywords, description, willingness to release IP, availability dates
4. Acceptance with date; Author signed release form
5. Technical Meeting announcement
6. Technical Meeting
 - Presentation laptop load & install, configuration test
 - Record live presentation, Q&A
7. Recording preview, submission, & distribute
8. Post editing option
9. Social networking

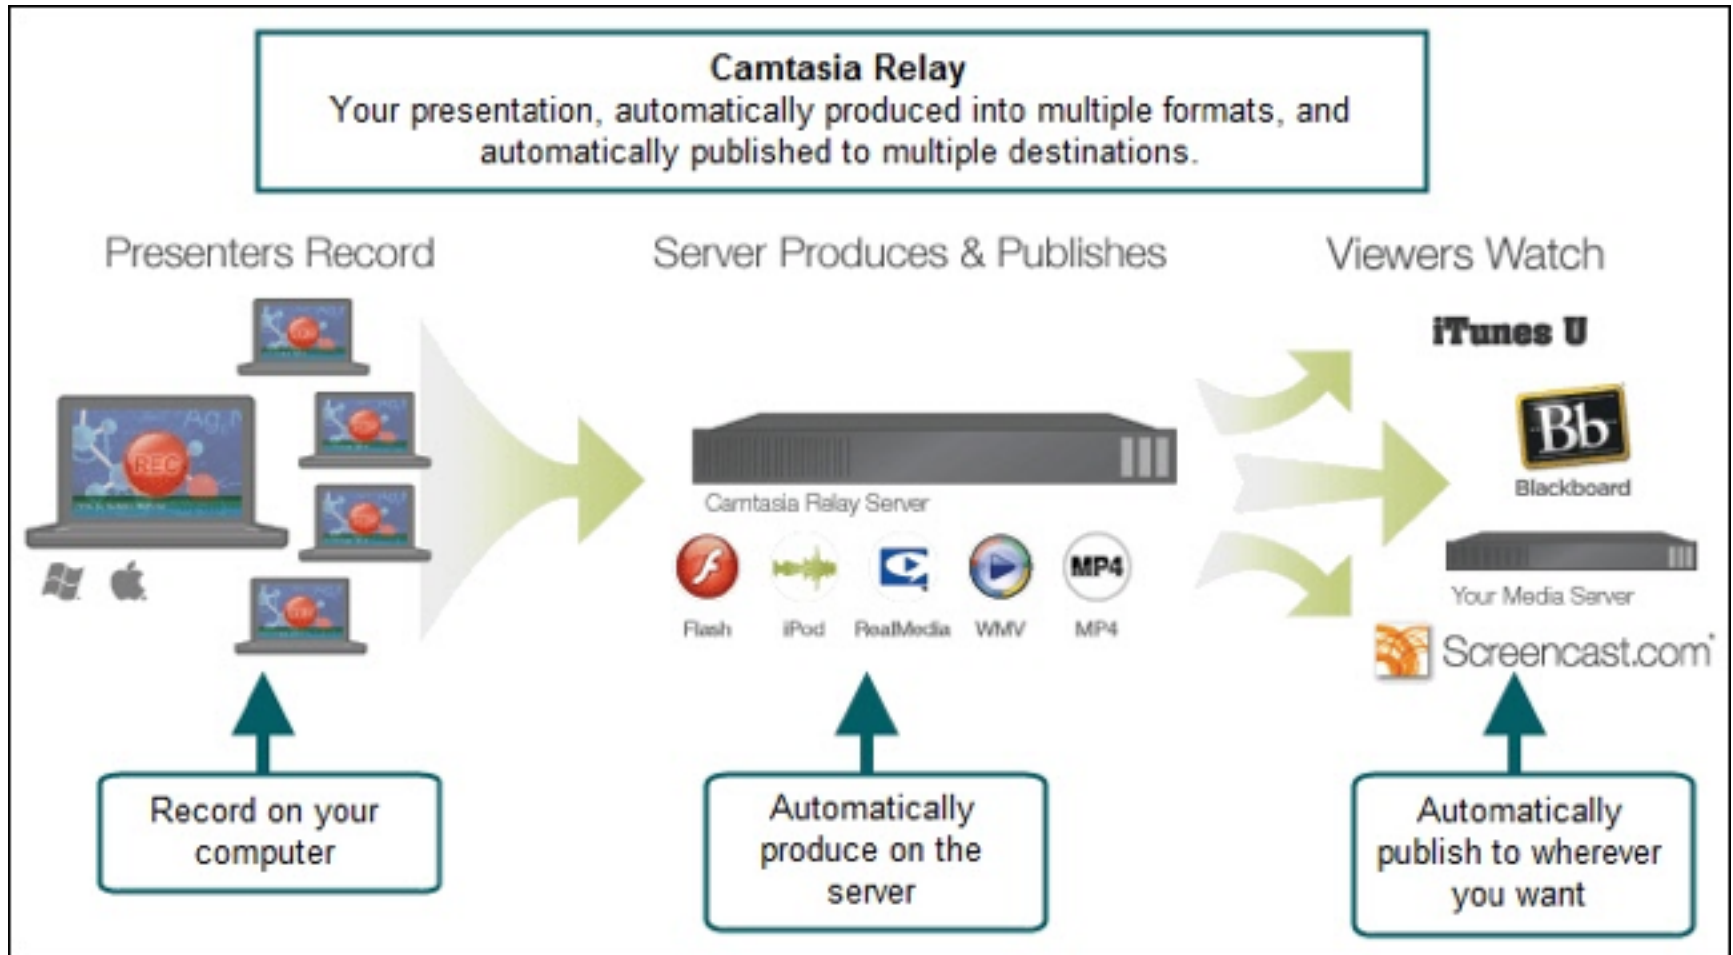

5. Big Picture: Technology

 **TechSmith**

 **IEEE**

Big picture

6. How connect & record audio

Audience/Audio Basics

- For small venues (~20-30 people or less) House Audio is Not Required BUT may be used if available
- Use of the built-in laptop microphone is not recommended
- The recommended wireless microphone system supports all presenter styles
 - Podium/fixed
 - Lavalier
 - Headset
- Set up wireless mic's and receiver in accordance with system manual
- Recommend headset mic for presenter and handheld for audience

Connection to PC and Mixer

Use of balanced cables is only necessary with very long cable runs or when the audio cable is run alongside ac power cables

CASE 1 - No house audio (small group) Hookup to Camtasia PC Only

CASE 2 - Using House audio With access to mixer

1/4" TS phone plug

XLR Cables

1/4" TS phone plug

Laptop

Mixer

CASE 3 - Using House audio WITHOUT access to mixer

Microphone and Recording Basics

- Distance/Position is everything!
- Each Microphone has different/unique requirements

Handheld dynamic microphone
4" ~45 degrees out of plane

Lavalier (midline as close to throat as possible)

Headset - corner of mouth, flat/front of transducer facing and parallel to face

Putting it all together

- Make a short test recording
- Check level, clarity
- 5 volume/gain controls
- Avoid highest gains due to potential distortion
- Troubleshooting

7. How make video recordings

- Download and install software on presentation laptop
- Acquire Presenter's copyright
- Make a Video Recording (12 steps)
- Submit recording for encoding on server
- Receive email with recording URL link

Login for software install

The image shows a web browser window titled "Camtasia Relay" with the URL "https://ca-camtasia.ieee.org/Relay/". The browser's address bar and menu bar are visible. The page content includes the "Camtasia Relay" logo and "TechSmith" branding. A login form is displayed on the left, with the following fields and text:

- Username:** John Walz
- Password:** [Redacted with asterisks]
- [Forgot your password?](#)
- Sign In** button

Below the login form, there are three main navigation options:

- Manage Presentations**: Find links to all your presentations and check the progress of ones you've just uploaded
- Manage Accounts**: Store usernames and passwords for a variety of publish destinations
- Download Camtasia Relay**: Sign in to the website to download Camtasia Relay for Mac or Windows

The footer of the page reads: "Camtasia Relay - 4.3.1.3819 | © 2008-2013 TechSmith Corporation"

TechSmith Fuse® for Camtasia Relay Information

TechSmith Fuse is a camera video recorder for iOS and Android devices designed for use with the Camtasia Relay server. TechSmith Fuse records camera video and uploads it to the Camtasia Relay server for automated encoding and publishing.

TechSmith Fuse also can upload existing videos from your library to the Camtasia Relay server.

Portable Recorder Information

You can run the Camtasia Relay portable recorder from a mobile storage device if there is any reason you cannot (or do not want to) record and upload directly from the presentation computer.

How to Install the Portable Recorder

1. Plug in a mobile storage device (such as a USB flash drive) and format the device as FAT32.
2. Click **Download Portable Recorder** and save the PortableCamtasiaRelay.zip file to your computer.
3. Locate and open the saved .zip file.
4. Copy all files from the .zip file onto the mobile storage device. All files from the .zip folder need to be copied to the

IEEE COPYRIGHT AND CONSENT FORM

To ensure uniformity of treatment among all contributors, other forms may not be substituted for this form, nor may any wording of the form be changed. This form is intended for original material submitted to the IEEE and must accompany any such material in order to be published by the IEEE. Please read the form carefully and keep a copy for your files.

TITLE OF PAPER/ARTICLE/REPORT, INCLUDING ALL CONTENT IN ANY FORM, FORMAT, OR MEDIA (hereinafter, "The Work"):

COMPLETE LIST OF AUTHORS:

IEEE PUBLICATION TITLE (Journal, Magazine, Conference, Book):

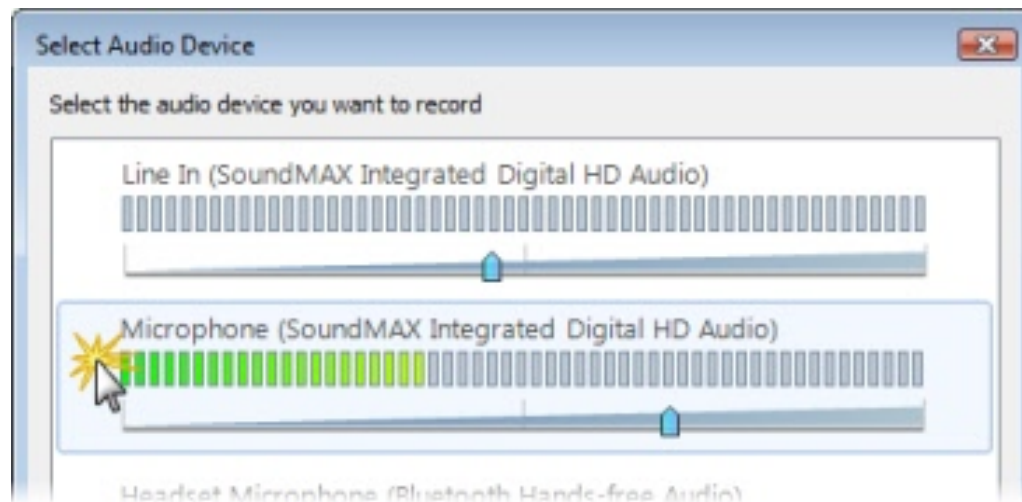

COPYRIGHT TRANSFER

1. The undersigned hereby assigns to The Institute of Electrical and Electronics Engineers, Incorporated (the "IEEE") all rights under copyright that may exist in and to: (a) the above Work, including any revised or expanded derivative works submitted to the IEEE by the undersigned based on the Work; and (b) any associated written or multimedia components or other enhancements accompanying the Work.

CONSENT AND RELEASE

Make a Video Recording

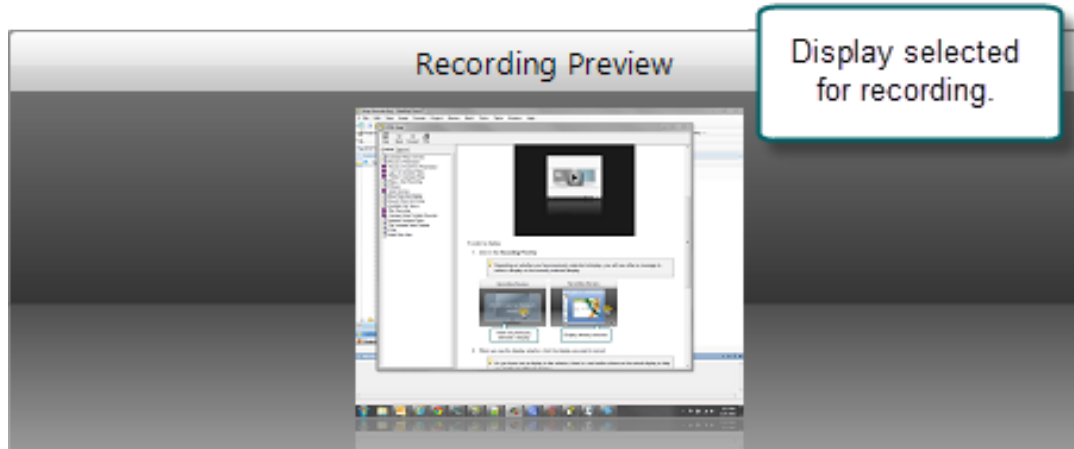

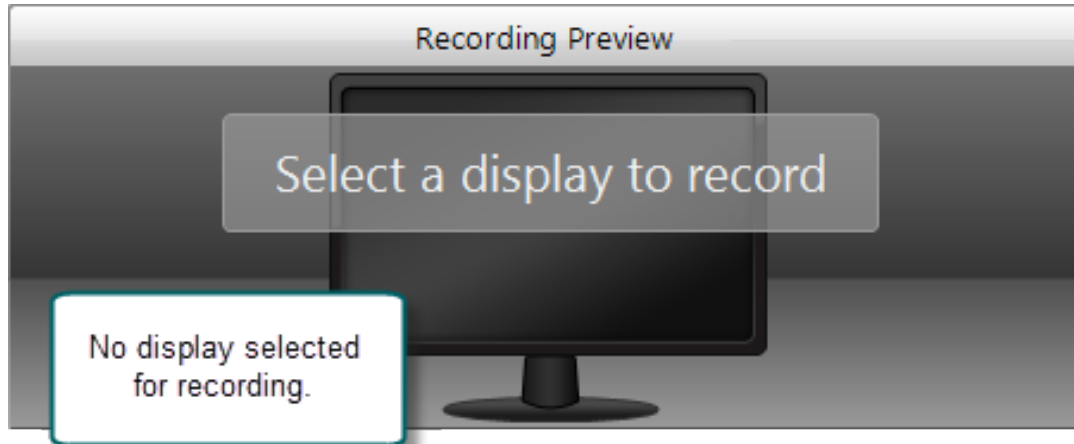

1. Launch TechSmith Relay Recorder.
2. Log in with your username and password.
3. Click the Audio button and select an audio device in the Select Audio Device dialog.

Select Record System Audio to include the sound you hear from your speakers in the recording.

Make a Video Recording (2/5)

4. Select which display to record if using a projector displaying a different screen or multiple displays.

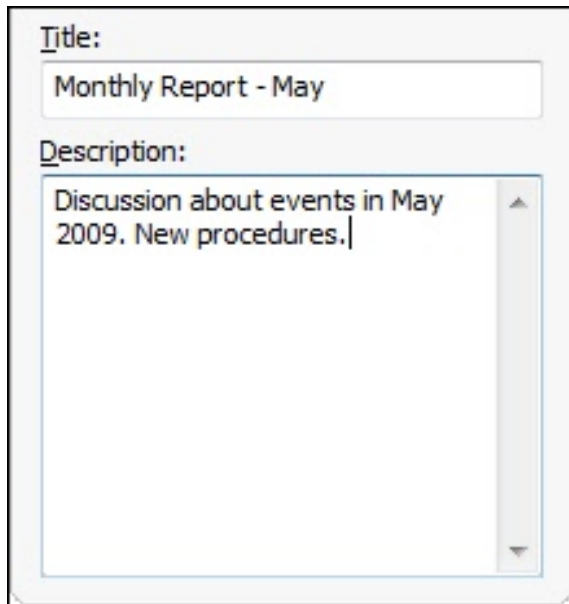

Make a Video Recording (3/5)

5. Click the Camera button to select a camera to record along with your presentation. This camera is displayed in the lower right corner of your presentation in a picture-in-picture format (optional)

6. Enter a presentation title and description.

A form with two input fields. The first is a text box labeled "Title:" containing "Monthly Report - May". The second is a text area labeled "Description:" containing "Discussion about events in May 2009. New procedures.".

Title:
Monthly Report - May

Description:
Discussion about events in May 2009. New procedures.

Make a Video Recording (4/5)

7. Make a test recording to verify that you are recording from the correct display, camera, and audio device.

8. Click the Record button. The recorder is minimized to the system tray.

9. Give your presentation. TechSmith Relay Recorder records everything on your screen, selected camera, and the selected audio device.

10. Stop the recording using the icon in the system tray.

Make a Video Recording (5/5)

11.If needed, click Trimming to set trim points to cut out extra video at the beginning and end of the presentation.

12.Click the Submit button.

If you are connected to the Internet, the presentation starts uploading to the TechSmith Relay website.

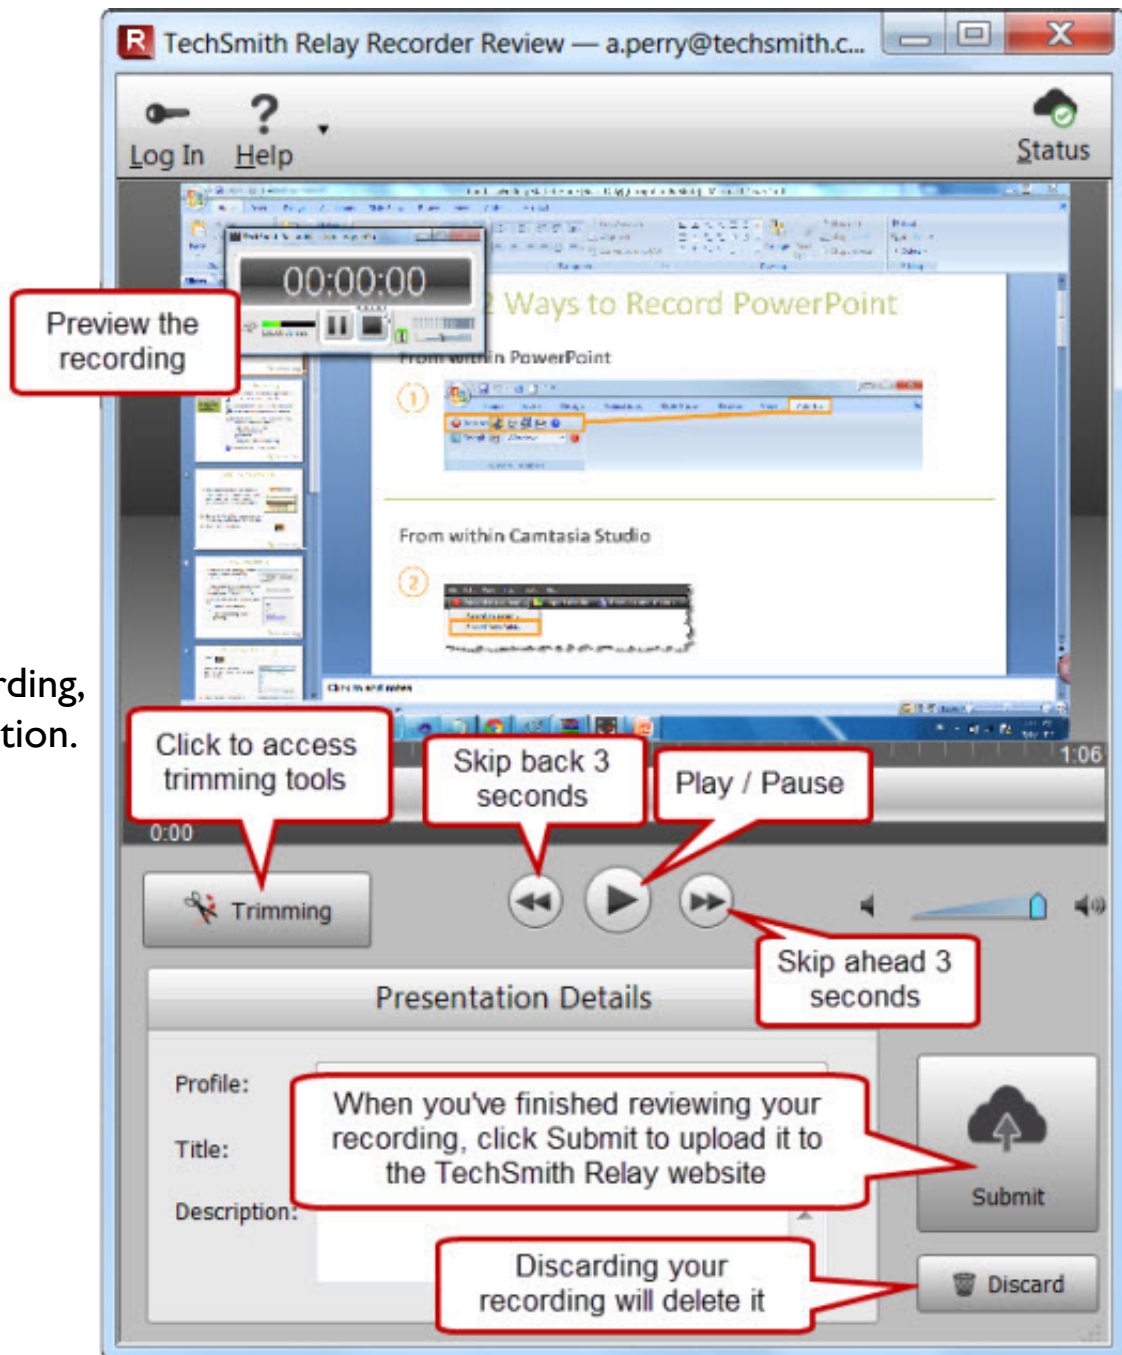

If you are not connected to the Internet, the recording automatically starts uploading when you connect to the Internet. You do not receive notice when your presentation begins uploading.

Check the Status of Your Presentation on the TechSmith Relay website.

11. Preview and Submit the Recording

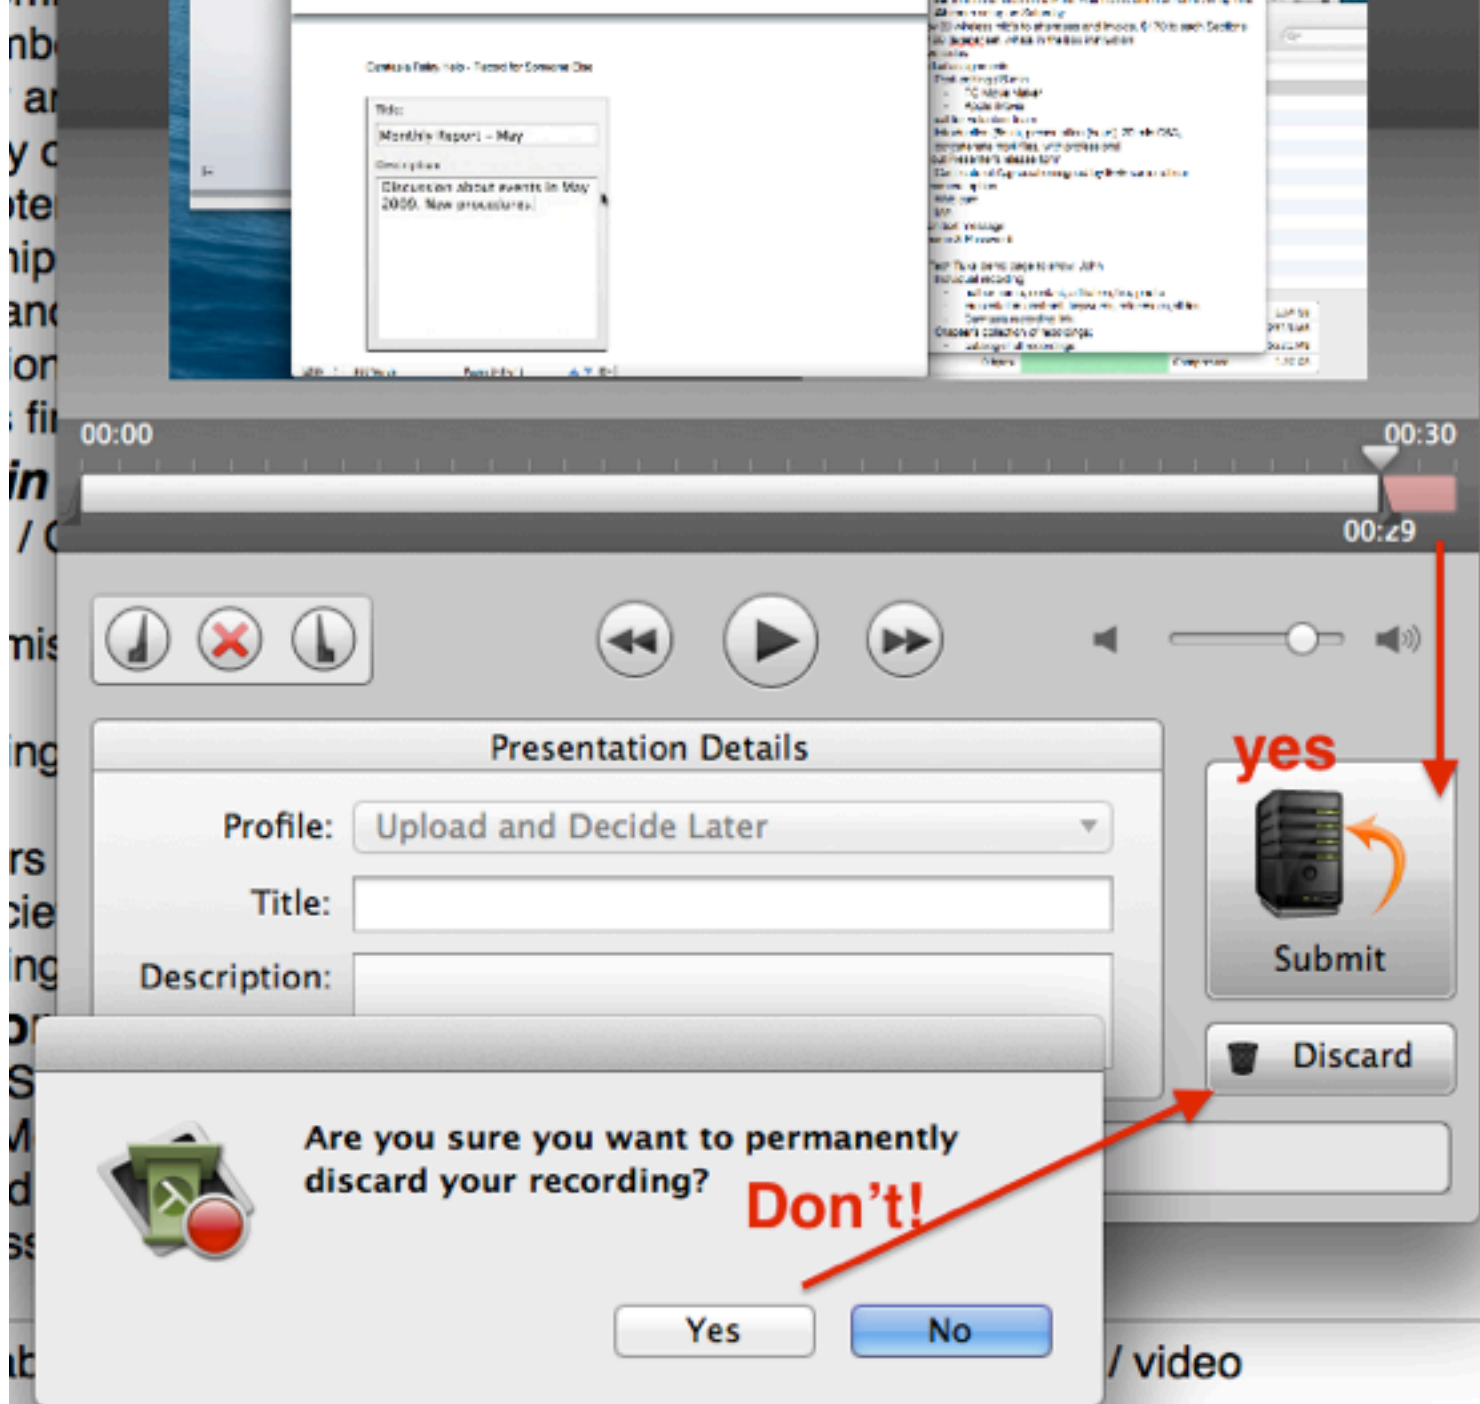

After you finish recording your presentation, it opens in the TechSmith Relay Review window.

1. Preview your recording.
2. If you did not do so prior to recording, log in and enter a title and description.
3. If you need to, trim the beginning and end of the recording.

11b.

Trim, not Discard

12. Camtasia Relay Recording Upload

The screenshot shows a web interface for Camtasia Relay Recording Upload. A modal dialog box titled "Presentation Complete" is centered on the screen. The dialog contains an icon of a monitor and a server connected by an orange arrow. Below the icon, the text reads: "The presentation was submitted for upload to the server. If you are currently **online**, the presentation will begin to upload immediately. If you are **offline**, your presentation is now stored on your computer and will automatically begin to upload the next time your computer is online." At the bottom of the dialog is an "OK" button and a help icon (a question mark in a circle). In the background, the main interface is visible, including a "Profile:" dropdown menu set to "Upload and Decide Later", a "Title:" text input field, a "Description:" text area, a microphone icon with "Auto" and a volume slider, and two large circular buttons labeled "test" (blue) and "rec" (red). At the bottom of the interface, a status bar shows a green checkmark icon and the text "Connected to: <https://ca-camtasia.ieee.org/relay>".
